

Hausch & COMPANY

—CAT Solutions—

COMMUNICATION, RELIABILITY, AND TRANSPARENCY

Our focus is to provide quality service at a competitive cost. Our catastrophe division can be deployed within 24 hours after an event and can be trusted to communicate at a moment's notice and throughout the claims process. Our team consists of W2 adjusters, captive adjusters, and non-captive (1099) catastrophe adjusters. In addition, our training and back-end support help our team of skilled adjusters handle simple to complex losses for any size of event.

Our workflow preparation starts before the event with our strategic CAT plans.

We provide access to our clients to our CMS system allowing viewing of internal notes and up-to-date status within our web-based system. We strive to deliver cost-saving results and top-notch handling for our clients and carrier partners with every claim.

Proven Catastrophe Services Team

Better-Than-Industry Turnaround Times

75 years of industry experience results in strategic CAT plans that enable our teams to act fast and efficiently.

Top-Notch Quality Control and Client Managers

When natural disasters strike, our back-office support ensures the highest quality control for accurate claims and processing.

Secure CMS with 24/7 Accessibility

Guaranteed uptime of 99.9%, continuously backed-up, located offsite, and protected by the highest security available.

Guaranteed Same-Day Contact

Expect an immediate response, followed by deployment of our CAT division within 24 hours.

Our Advantages

Cost-Saving Results

Deliver cost-saving results by understanding state regulations, policy provisions, and providing quality investigations.

Technology in Claims

We are on the forefront of technology and tools and help clients implement programs that support future capabilities.

Quality Control

All reports are reviewed for specific client guidelines, applicable coverage, and overall quality of handling and product.

Large Roster of Captive + Non-Captive CAT Adjusters

A reliable team experienced in dealing with all extreme weather catastrophic claims, no matter the scope.
